JESEENA J
Full Stack Developer

SUMMARY

Aspiring Full Stack Developer with hands-on training in Python, Django, and front-end technologies, backed by a strong foundation in written communication and analytical thinking from a background in English Language and Communication. Built a complete medical store management web application during an internship, covering both front-end and back-end development. Eager to apply strong problem-solving skills and attention to detail to a full-time development role.

SKILLS

- **Python:** Writes clean, efficient code for backend logic and application development.
- **Django:** Builds secure, scalable web applications using Django's MVT architecture.
- **HTML & CSS:** Structures and styles responsive, well-organized web page layouts.
- **JavaScript:** Adds interactivity and dynamic functionality to web interfaces.
- **MySQL:** Designs relational databases and writes queries for efficient data handling.
- **Development Environments:** VS Code, MySQL Workbench, Python IDLE, Notepad++: Comfortable working across these development environments for coding, debugging, and database management.
- **Time Management & Problem-Solving:** Prioritizes tasks effectively and applies analytical thinking to identify issues and implement solutions.
- **Team Collaboration & Attention to Detail:** Works well within teams and reviews code and documentation carefully to ensure accuracy.
- **Communication:** Strong active listening and interpersonal skills that support clear collaboration and client interaction.

PROJECTS

Carenova- Medical Store Website | *Safe Technologies* | 2025

- Designed and developed a medical store management web application using Python and Django.
- Implemented secure user authentication, medicine inventory management, shopping cart, and order processing.
- Built responsive front-end interfaces using HTML, CSS, and JavaScript, with MySQL for database management.

JobBizz - Job Consultancy Platform | 2025 - 2026

- Developed a job consultancy web application using Python, Django, and MySQL.
- Built separate portals for candidates, companies, and admin.
- Implemented candidate registration and login, job search, and application tracking.
- Created admin features to manage candidates, companies, and feedback using MySQL.

COURSES & LEARNING

Full Stack Development with Internship | *Safe Technologies* | Jul 2025 - Mar 2026

- Completed a hands-on full stack development course covering Python, Django, and web technologies, including a practical internship where the MediNova / Carenova project was built end-to-end.
